*26 Report*

25 JAN 1978

MEMORANDUM FOR: Associate Deputy Director for Science & Technology

SUBJECT : Inspector General's Draft Report on JPRS ☐

25X1

REFERENCE : Memo for DD/S&T from IG dtd 13 Jan 78, subj:  
Inspection Report on Domestic Installations  
and Activities in the Washington, D. C. Area  
☐

25X1

1. ☐ FBIS comments on the IG team's draft report are attached. They include substantive corrections and clarifications.

25X1

2. ☐ The IG Staff's introductory comments on the scope of the domestic field inspection state that 'Headquarters activities are being reviewed only to the extent that they relate to or support domestic field activities.' The investigators' draft report on JPRS suffers from failure to take into account highly relevant FBIS Headquarters activities, apparently because of an incomplete understanding of JPRS' mission and of how JPRS interacts with inhouse components. Time may have been a factor: they spent less than two days at JPRS, following a very brief meeting in FBIS Headquarters.

25X1

3. ☐ The problems addressed by the investigators are well known to FBIS management and are high on our agenda.

25X1

☐
